

POWAY UNIFIED SCHOOL DISTRICT

ATHLETIC TRANSPORTATION POLICY 2016-17

As a result of budget reductions at both the state and local levels, PUSD funding for athletic transportation has been eliminated. Although PUSD has the available school bus fleet resources, the expense for these services falls upon each individual team. This year the district is having each program handle their collection of these transportation donations.

In order to continue offering transportation for athletic trips, the following transportation donation amount of \$20 has been established for Track in 2017. This amount is for the Spring Track season only. If there is a financial problem, parents are advised to communicate with the coach directly.
